

### **Iryna Dodds - Bio**

Iryna has 17 years of experience working in technology companies, leading complex programs and multi-functional teams. Currently, she is a team leader/director at Pfizer, where she oversees the development and execution of pharmaceutical sciences strategies for various projects in oncology, internal medicine, immunology, and inflammation. Prior to Pfizer, she was employed as a scientist at WuXi AppTec in the Philadelphia area, where she was also a post-doctoral fellow at the University of Pennsylvania.

She holds a Master of Science in Biochemistry from the National Schevchenko University in Ukraine, and a Ph.D in Biochemistry from the University of Oklahoma. She also served on the faculty of the University of Phoenix, Philadelphia campus, for 8 years (from 2010 – 2017).

In 2023, Iryna had the opportunity to assist VFF-Metal Processing, a custom part manufacturer based in Ukraine and owned by her brother, in successfully navigating the complexities of entering the US market. Iryna serves as the US representative for VFF-Metal Processing and supports their marketing and customer support strategy, helping to bridge the gap between their operations and client needs.
