September 26  
12 pm - 2 pm

We all know how much life has changed during Covid-19. There has been heartache, boredom, productivity, and joy. Let us gather to share some of the light hearted moments of our experience. In one paragraph, please write about a silver lining you've experienced during this pandemic experience to be shared by our MC for the day, Pastor Mark.

Bring your friends, family, and let us come to gether as community - socially distanced of course - to lift each other up as we move into colder weather.
