"TIPS LEARNED ALONG THE WAY AS A GRANDMOTHER"

Join with parishioners and friends for coffee and danish and the opportunity to enjoy our speaker, **Martie Gillin**.

"Our family are long time parishioners of STV. We raised our children in that parish with cherished memories.

The culture of family and love of family is alive and well at STV. We founded SpeakUp! after our son passed away and we realized our family could benefit from some lessons in communication and if we did maybe other families could as well.

As we grew we saw the value of listening and learning from one another and the younger generation have shared how much they value their Grandparents in their lives. We have learned and shared tools and tips for connecting with our precious Grandchildren. We look forward to sharing with you and learning from you."
