This will be another witness as to how we at St. Thomas shows God's love in our community. Thank you! Jon Phillip

PASTORAL CARE

Specialized Pastoral Counseling at St. Thomas – This counseling is specialized in that it will meet the need of anyone looking to be able to clear and optimize the way their mind works. It is fast and effective with many of life's problems including anxiety, depression, grief, low self-esteem, relationship issues, anger, resentment or self-destructive behaviors. In this approach the "renewing of the mind" is the pathway to healing. Call Fr. John Peterson for an appointment at 920-725-5601.

I'M LOSING IT!

I've had it! I can't take another thing! Elijah says to God in I Kings 19:4 "I have had enough, Lord, take my life for I am no better than my ancestors who have already died." When we get fixated on the presence of all our problems, we can lose our focus on the presence of God. When we are overwhelmed and feeling anxious, if we listen to HIS Voice, we will find that God is whispering to us. But why whisper? He whispers because He is so close. He whispers to draw us close.. When you have had enough, God is Enough! Prayer is like a physical workout for the brain and changes its chemistry. Dr. Graig Groeschel writes: "It has been found that twelve minutes of daily focused prayer over an eight-week period can change the brain to such an extent that it can be measured on a brain scan. This type of prayer increases activity in the brain areas associated with social interaction, compassion and sensitivity to others. It also increases frontal lobe activity as focus and intentionality increase."
