

“John Scibak, our Speaker of the Year, truly enjoys presenting to varied audiences on important topics like Disinformation and Advocacy. He brings his experience as a Massachusetts legislator teaching young people how to advocate for issues that matter to them. John is now developing a new presentation on how to track individual legislator actions as well as new legislation as it moves through the system. Although he is busy teaching other local classes, John always makes time for Speakers Bureau; attending more talks than anyone on our team this year. Our community has certainly benefitted from John’s dedication, experience, and enthusiasm. Speaker of the Year is well-deserved.”
