

As we boost outreach for *Unite and Rise 8.5*, there's a powerful communication tool that's available to you! It's a FREE mobile app called *League in Action*.

LWV-approved *League in Action* (LIA) alerts you to take and share actions through text or email, with your contacts - as a *trusted source*. Those actions might be attending a rally, signing a petition, or contacting a legislator about pending legislation.

The power of LIA is that the outreach is exponential. As you share an action with your contacts, *your* contacts are able to share those actions with *their* contacts, *their* contacts share with *their* contacts, and so on. It's a warm networking tool that has dynamic outreach capabilities.

Here's how to get started:

1. Download the *League in Action* app
2. Join the Sarasota County Circle
3. Add your contacts
4. Share posts with your contacts! We recommend starting with 10 contacts, friends who will most likely be engaged in taking action.
