FOREST
DRAPERY HARDWARE

Product Update:

WHAT'S NEW FOR 2020

GLASGOW

1 3/8" acrylic pole sets featuring three decorative finials. Brackets, rings and fnials posts are available in polished chrome, polished brass and graphite.

DSXL LED LIGHTED

This unique drapery system combines a stylish design with a unique way of lighting. Light the backside of the drapery or the track itself. Use one or two LED strips with low energy consumption - eco friendly. Dimmable. LED lifespan 30,000 hours.

Motorize with any of the Forest Shuttle motors!

SHUTTLE iON

Shuttle iOn brings a battery operated solution to motorizing your draperies. The lithium iOn battery is capable of holding a charge for 6 months. The battery pack is removable and charger is included.
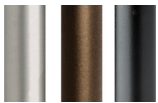

BATONS OF MANY COLORS

Our 36" Fiberglass Batons with snaps are available in 7 colors to coordinate with your drapery design.

24 Satin Brass	25 White	59 Black	65 Brown	81 Bronze	90 Silver

Deventer MRS® can be powered by any Forest Shuttle motor.

DEVENTER COLLECTION EXPANSION

Introducing the Deventer Deco Collection and the Deventer MRS® Motorized System. The 1 1/8" Deco rods feature a quiet inlay on the top of the pole and inside the rings for ulta-quiet and smooth operation. Choose satin nickel, antique bronze, graphite or taupe (Deventer Deco only).
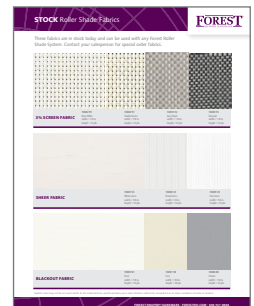

ATLANTIS SLIM LINE

Tubular motorized roller shade system with internal multi receiver and electronic limit setting. Maximum total weight is 7.5 lbs with a 6 Nm motor. Noise level < 44 dB. Easy installation with universal adjustable brackets. 10-year warranty included.

The new 15-channel Diamond Sense remote features an LED display which lights up automatically when holding in your hand. Great for use in a dark room!

ROLLER SHADE FABRICS

Forest now stocks 10 roller shade fabrics and offers more than 100 designer options available to order with a short 2-week lead time.
