# DHC's 2021 Year in Review

Doctors for Healthy Communities expanded the possibilities of our non-profit work in 2021. Thanks to great community partners such as JCPS, our Ignite Louisville team, Kentucky Refugee Ministries, Kroger and many others, we were able to affect change for thousands of people across Kentucky.

DHC is proud of the volunteers who delivered supplies to tornado-stricken Western Kentucky (1), assisted in the creation of a video summarizing our JCPS partnership (2), distributed 100+ gift cards to Bell County (3), shared hundreds of reusable water bottles with school children (4), provided Kroger gift cards to families in need (5), and completed physicals for Afghan refugees (6.) Click each image to learn more! For a complete look back at our year, visit [www.dhcus.org/posts](http://www.dhcus.org/posts).
