

# ELECTRIC VEHICLE PLANNING 101 WORKSHOP SERIES:

## Introduction to Community EV Planning

March 9th 10 am-12 pm MST

Join NCCC and Xcel Energy's Partners in Energy Workshop to discuss what should be included in a community EV readiness plan, who you should involve, and funding and technical resources that are available to you! You will be walked through a helpful toolkit, and have speakers from 3 communities who have each started or implemented an EV Plan.

## Creating a Strategic EV Education and Outreach Plan

March 23rd 11 am-12 pm MST

Join NCCC and Xcel Energy's Partners in Energy Workshop to discuss how to create a comprehensive EV outreach plan. Further, learn which strategic partners you can collaborate with and what messages can best reach different audiences.

## Planning for Fleet Electrification

April 7th 12-2 pm MST

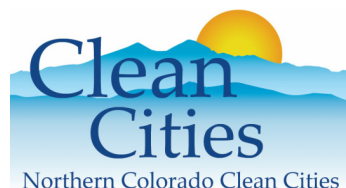

Join NCCC and Xcel Energy's Partners in Energy Workshop to discuss the benefits to electrifying your fleet, how to incorporate electric vehicles into your fleet vehicle replacement plan, and budgets. We will also discuss funding and how you can get free resources to advise on electrifying your fleet.

## EV Charging Infrastructure Planning

April 20th 11 am-12 pm MST

Join NCCC and Xcel Energy's Partners in Energy Workshop to discuss EV infrastructure planning best practices and understand levels of charging needed for your community and properties. You will be walked through helpful tools, resources, and funding opportunities, like Charge Ahead Colorado, in order to get your EV charging infrastructure in place.
