

BLOODBORNE PATHOGENS TEST

- | | | | |
|-----|------|-------|---|
| 1. | True | False | HIV attacks a person's immune system and causes it to break down. |
| 2. | True | False | Currently there are no vaccines for HCV and HBV. |
| 3. | True | False | The only way to detect HIV, HBV or HCV is through a blood test. |
| 4. | True | False | Fatalities do not have to be reported to OSHA. |
| 5. | True | False | Like the flu or a common cold, HIV, HBV and HCV can be spread through the air. |
| 6. | True | False | If you are exposed to a bloodborne pathogen, you are automatically infected. |
| 7. | True | False | Dried HBV has been shown to survive on environmental surfaces at room temperature for up to one week. |
| 8. | True | False | There are five major tactics for protection against bloodborne pathogens. |
| 9. | True | False | You can eat, drink, smoke, apply cosmetics or lip balms, in potential exposure situations. |
| 10. | True | False | Engineering controls are designed to isolate or remove BBP hazards from a workplace. |
| 11. | True | False | When your hands are visibly soiled or contaminated by blood or OPIMs, use an alcohol-based hand rub to clean them. |
| 12. | True | False | Make sure to store your food and drink close to you when working with blood so you don't have to leave the room. |
| 13. | True | False | Never break, bend or recap contaminated needles or sharps. |
| 14. | True | False | Mouth-pipette or mouth suction only if you have performed this procedure before. |
| 15. | True | False | Before donning gloves, make sure to cover or bandage cuts and abrasions, since gloves can be torn or punctured. |
| 16. | True | False | Always remove PPE, such as gloves, before leaving a work area. |
| 17. | True | False | Reaching into a trash container to retrieve an item is OK, if you are almost certain there are no needles or sharps in the container. |
| 18. | True | False | If you are exposed to blood or body fluid, wash the area right away with bleach & water. |
| 19. | True | False | You have to sign the HBV declination form if you do not want to receive the HBV vaccine at the time it is offered. |
| 20. | True | False | The Safety Data Sheet (SDS) must follow the 16-section format. |

ACKNOWLEDGEMENT OF TRAINING

I have attended and understand the training session, **Bloodborne Pathogens**. I have also completed and passed the quiz at the conclusion of this session.

Employee's Signature/Name of Practice
