

## Important Announcement: **Pediatric COVID Vaccines Purchased on or After January 9, 2024 Now 100% Returnable**

We are pleased to announce an important update to our vaccine return policy that we hope will have a positive impact on pediatric health and immunization rates.

**Effective immediately, all privately purchased pediatric COVID-19 vaccine doses (NDC No. 80777-0287-92) purchased on or after January 9, 2024 will be 100% returnable for the entire season, pursuant to the return policies and procedures provided in your contract with Moderna.**

This change is part of our commitment to support healthcare providers and ensure that all children under the age of 12 have access to the COVID-19 vaccine.

We understand the challenges faced by providers in predicting the exact number of doses needed. By allowing for increased returnability of unused pediatric COVID-19 vaccines, we aim to eliminate the risk of unused excess supply for providers and encourage them to keep a healthy stock on-hand without the worry of excess inventory.

Let's work together to keep our children safe and healthy.
