1	Only a few pay the code. Our reimbursement rate is only about 9% at this time. But we plan on continuing to use it.	11/8/2024 12:49 PM
2	We've recently started using the G code and have only billed it twice so far, both with CMO. The first claim was initially denied due to using the 25 modifier, but we've since corrected that and resubmitted it. The second claim is still pending. Once the processing for both claims is complete, I'll be able to provide a more comprehensive update on whether the G code will be reimbursed.	11/8/2024 9:33 AM
3	We have seen a few Aetna plans cover this code.	11/8/2024 9:09 AM
4	We are not using at this time but are investigating. I look forward to seeing the responses to this survey	11/8/2024 8:44 AM
