

**Brick Boredom Buster Camp:
Friday, April 10th
Secret Spy School**

It's time to train. You have been recruited to the Brick Intelligence Agency. You must complete the training below or you will fail out of Spy School. You will be assigned to a mission once you have graduated. Pay attention to everything and don't lose track of the mission!

Use them all, use only one, or mix and match! On some activities, we've added a "make it extra" section to expand on the activity and make it more fun or last longer. And don't forget to take a picture or video, post it to Instagram or Facebook, and tag #brickboredombuster to be entered into the weekly drawing for a prize pack that we mail to your home!

Let's Get Set Up

Here is the list of everything you must do before you can begin your mission:

1. Create an Alias and secret identity
2. Create a disguise of your secret identity
3. Provide your thumbprint and ID card
4. Background Check

These are all separate PDF attachments.

Disguise

Read the attached PDF for how to create the best disguise. Get creative with your Alias and the disguise that goes along with it. You can be whoever you want. You just must come up with the look that goes with it!

Thumbprint and ID Card

The thumbprint can be achieved by coloring your thumb with a washable marker and pressing it into the box on the ID Card. The ID Card also holds their name and their alias.

Background Check

In the Background Check, you will have a section to create invisible notes. You will need lemon juice, something to "write" with (paint brush or Q-tips work best), paper, and a light source (flash light or lighter). Use the lemon juice to dip the writing utensil in and have them write a secret note. Then use the light source to shine on the back of the sheet to reveal the note!

You will also, have section that calls for a Cypher card test. There is an attached PDF that has the code on it. Provide that for the trainee and see if they can crack the code!

Training: Laser Test

This skill test is accomplished by attaching yarn across multiple pieces of furniture to create a course the trainee must move through without touching the "lasers" at all.

Training: Attention to Detail

With a partner, trainees must assign the detective and the suspect. The detective turns his back to the suspect and counts to 10 (at a normal speed) and then turns around. During those 10 seconds the suspect must change one thing on their body (hair, undo one button, tuck or untuck their shirt, untie a shoe, etc). The detective then has 10 seconds to try and guess the change. If they get it right then they earn a point. Then the roles switch. The first to 5 correct guesses wins.

Secret Mission:

There will be 4 different missions attached in a PDF. Randomly assign them and the first person to accomplish their mission without anyone else figuring it out will be the winner.

Physical Activity: Kids Fitness

Your mental training is so important but so is your physical training. Below is a link to a training exercise to make sure you are strong enough to be a part of the Brick Intelligence Agency. Complete the whole thing or you lose your BIA status!
