

The Trinity College Preparatory Academy: Jacob DeHoff Learning Center, a program designed to assist youth in their quest for higher education, is pleased to announce the full funding of twelve (12) student scholarships for its July 2018 STEM Program. This Science, Technology, Engineering and Math (STEM) program is a full-time day (Monday - Friday) program that begins on July 1st through July 31st from 9:00 am until 3:00 pm. The STEM approach focuses on inspiring students in these four subjects by integrating the teaching with an applied learning approach based on real-world applications. The program will be taught by a college professor, a high school teacher and a college student intern. Lunch will be provided.

Each scholarship is valued at \$5,000. The selection process is competitive and priority will be given to the first twelve student candidates who are best qualified to be successful in the program. Priority will be given to students who attend the monthly TCPA seminar during the year. Enrollment is open during the year. For additional information regarding the TCPA program, please visit <https://www.trinityucc-york.org/tcpa-ministry>

Interested candidates should send a letter detailing why he or she will be a good candidate for the STEM Program at Trinity College Preparatory Academy: Jacob DeHoff Learning Center. Candidates who are selected to move forward in the application process will sit for an interview with the academy advisory board members. Please forward your materials to the email address below. Please include the following in the subject heading: TCPA Jacob DeHoff Learning Center STEM Application. Applications will be accepted until April 13, 2018 at 5:00 pm.
