

**NOVEMBER 12, 2017
12PM - 2PM**

STARVIEW UNITED CHURCH OF CHRIST

OPIOID EPIDEMIC SEMINAR

It has been said that "Heroin is the devil's drug." In 2016, over 54,000 deaths, nationwide, were attributed to overdose. Frightening too, is the fact that the largest increases in overdose deaths are occurring in states along the East Coast, particularly Maryland, Florida, Pennsylvania, and Maine. Our own church and local communities have been directly effected by drug and alcohol addiction. In faithful response, we will host a seminar led by the team of Opioid Specialists from Pennsylvania Counseling Services. In doing so, we are "holding up our corner"-providing a safe space to learn the facts, dispel myths, gather resources, make connections, and discern the best way to move into the future as people of faith and hope.

Light refreshments will also be provided. Entire families, church groups, healthcare professionals, and anyone simply wanting to learn more are invited to attend. Please call (717) 266-4248 to reserve your seat. Please leave your name, the number of participants in your party, and phone number.
