

Audio/Visual System Operators Needed

Church of the Apostles, United Church of Christ in Wayne Heights is looking for two people to operate our Audio/Visual system during Sunday morning worship services at 10:45 am (summer worship at 10 am, beginning the first Sunday in June and ending with Labor Day weekend). Other services would include weddings, funerals, Lenten services and Christmas Eve. These are part-time, independent contractor positions; paid per service. Responsible teenagers will be considered. Training will be provided.

We worship indoors in the sanctuary from October through May.

Responsibilities for indoor services include:

- * Advancing a computer slideshow
- * Operating a PTZ app-controlled camera
- * Streaming with a Black Magic Mini Pro video switcher
- * Converting internet audio and video presentations to MP3 or MP4 format and inserting them into the computer slideshow
- * Manage sanctuary sound, to include wireless microphone batteries and placement, wireless and fixed microphone volume levels using a remote audio mixer, audio recording and playback using a remote audio mixer, and external audio inputs (Bluetooth, MP3, CD).
- * Act as the church's A/V expert, to include troubleshooting problems with the system, evaluating potential technical approaches and making recommendations to solve problems or enhance the worship experience, acting as the church's liaison with A/V vendors and contractors.

We worship outdoors from June through September.

Responsibilities for outdoor services include:

- * Transporting & setting up equipment from inside to outside prior to the service.
- * Streaming with a Black Magic Mini Pro video switcher
- * Dismantling equipment & transporting back inside after the service.
