

HIGH SCHOOL SUMMER PROGRAMS IN ENGINEERING

CornellEngineering

Our culture encourages students to break rules to take intellectual risks. An exciting world of discovery is waiting for you. This summer come to Cornell University and find out for yourself!

BREAK THE RULES to:

Express your creativity and explore your passions!

Push the limits of your imagination!

Reward yourself for being great in math and science!

Lead a career in science, business, medicine, law, politics, natural resources, manufacturing, or countless other areas!

Make the world a better place to live!

Work with people from various backgrounds and cultures!

Curie Academy is a one-week residential program for high school girls who excel in math and science. The focus is on rising juniors and seniors who may not have had prior opportunities to explore engineering, but want to learn more about it in an interactive atmosphere. Experience life at Cornell University and explore the many possibilities awaiting you in engineering. Find out more about CURIE Academy today!

Seeking the Intellectually Rebellious **APPLY.**

CATALYST ACADEMY

is a one-week residential program for rising high school juniors and seniors from underrepresented backgrounds who desire to learn about engineering and careers within an interactive milieu. Experience life at Cornell University and explore the many possibilities awaiting you in engineering. Find out more about CATALYST Academy today!

CURIE Academy | July 14-20, 2019
