

Association for Preservation Technology

Eastern Great Lakes Chapter, Northern Ohio

EVENT ANNOUNCEMENTS: Reschedule of the May Co. Building Tour.
Thursday, August 22, 2019 at 5:30 pm. Happy Hour to follow, location TBD.

APT EGLC presents a tour of the historic May Co. building hosted by Geis Companies. Since the building in question is constructed of historic terra cotta, the event goal is to provide participants information on the historic material, technology behind executed repairs, the design process behind the rehabilitation and general background on this adaptive reuse project. This event will provide a good behind the scene look at the project and will be a good follow on to last month's terra cotta lecture presented by the International Masonry Institute. Please share this announcement with those who would be interested.

EVENT DETAILS:

TOUR: MAY CO. BUILDING

Date: Thursday, August 22, 2019

Time: 5:30pm

Cost: **FREE**

CEU: 1 AIA HSW LU

Location: Geis Construction Office

Tour Summary: The May Company building, constructed in 1914 as department store is in the process of undergoing an extensive adaptive reuse project. The project will rehabilitate the historic building in order to accommodate a mix use program including both commercial and residential installations. The project executed extensive repairs and replacement of the original terra cotta façade. The tour will begin at 5:30 and highlight the rehabilitation of the building, its terra cotta restoration and general enhancements to this very iconic downtown Cleveland building. Tour made possible by the The Geis Companies. Appropriate Personal Protective Equipment (PPE) & APTEGLC Waiver required. No open toed shoes or heels. If you have a hard hat please bring it, if not one will be provided for you. Attendance is limited. **Please RSVP no later than COB August 19, 2019 to apteglcno@gmail.com.** Please join us afterward for an informal on your own happy hour immediately following the tour, location tbd.

The Association for Preservation Technology International (APT) is a multi - disciplinary, membership organization dedicated to promoting the best technology for conserving/preserving historic structures and their settings. APT's mission is to advance appropriate traditional and new technologies to care for, protect, and promote the longevity of the built environment and to cultivate the exchange of knowledge throughout the international community. The APT Eastern Great Lakes Chapter (EGLC) encompasses Michigan, northern Ohio and northern Indiana. As a relatively new chapter, the eastern portion of EGLC is working within Northern Ohio to establish a relationship with those persons directly involved in the application of methods and materials to maintain, conserve, and protect historic structures and sites for future use and appreciation. <http://www.apti.org/>
