

TC Architects - Project Architect

Come join our team! We are searching for a Project Architect.

Since 1951 TC Architects has provided its clients with quality services that meet their goals and expectations concerning design, budget, schedule, and the technical refinements required for each project. We are a full-service architectural and interior design firm and have projects locally, regionally and nationally. We have an extensive experience in diverse building types including: healthcare, government, commercial, veterinary and zoo, housing, college and university, k thru 12, and recreation facilities. Use your talents while working on a variety of exciting projects.

Responsibilities and Duties

Applicant will be responsible for overseeing the development of projects and specifications, as well as coordinating the needs of our clients, staff and consultants.

Qualifications and Skills

Ability to work within a team environment. Must possess excellent communication skills, professional writing skills and the ability to multi-task between several projects and priorities at one time.

Overseeing the project in the developing of documents.

Fluent in using Autodesk software, including AutoCAD and Revit.

Experience with the use of Photoshop, Acrobat Reader/Writer, PowerPoint, Word and Excel software is desired.

LEED Accreditation is a plus.

Benefits

We offer a great working environment, flexible hours, 401k and excellent benefits. Our competitive benefits package includes: medical, life and disability insurance. Generous paid time off and paid holidays, and a 401K with company contribution.
