

# **ThenDesign Architecture (TDA)**

Senior Architect/ Project Leader (Cleveland, OH)

[www.thendesign.com](http://www.thendesign.com)

We are seeking registered architects. If you are curious and drive solutions, you will find our firm a great workplace.

## **Essential Skills:**

Provide project team coordination from concept through construction, specifications, and material selections.

Thorough knowledge of architectural design, programming, site planning, building codes, detailing, building material, and construction techniques.

Technical expertise in creating models that are accurate and coordinate with construction detailing and building systems.

Experience managing, mentoring and coordinating project teams.

Participate in construction administration, evaluate bids, conduct site visits, address technical issues, and maintain quality control during construction.

Work with engineers, contractors, fabricators, and regulatory agencies to meet overall project objectives.

Meet with clients and assist in managing client expectations and team communication.

Revit proficiency required.

## **Qualifications:**

Bachelor's degree from a NAAB accredited College or university.

(8) or more years of work experience and (5) or more years of people management.

Registered Architect, preferred.

## **Employment Experience you can expect:**

Collaborative work as a team and client engagement. The best software tools and IT support, when you need them. A learning environment where you can expect high responsibility to gain a wide range of experience. Company culture that allows you to direct your career path. Perks that ensure you know you are valued and provide work/life integration.
