World Kindness Day: Kindness Walls

Main Focus: **Bullying Prevention/Kindness**
Grade Level: **Elementary/Secondary**
Target Audience: **Student Body**

Prep Needed: Hang large sheets of bulletin board paper in the hallways
Time Required to Complete: 1 day
Materials Needed: Large sheets of bulletin board paper, Markers
Example:

Meet with your Peer Helpers to create uplifting and encouraging signs for them to hold at the car and bus drop-off lines to celebrate World Kindness Day in November. They can welcome students and parents with encouragement and a smile as they start the day. Hang large sheets of bulletin board paper in the hallways to establish “Kindness Walls,” where Peer Helpers and faculty members can write inspirational messages for the student body. After using the signs at the drop-off lines, display them throughout the school for everyone to see.

Seeing acts of kindness in action, along with the visual reminders displayed in the hallways, contributes greatly to a welcoming environment and strengthens the overall climate and culture of your school. Kindness is contagious!
