

Dr. Caesar Gonzales II is Chief Clinical Officer for Trinity Health Michigan, where he leads clinical strategy, quality, safety, informatics, and medical staff leadership across 9 hospitals, 2,400 beds, and 4,000+ physicians. He is dedicated to building cultures of safety, reliability, and compassion—aligning clinical teams to deliver care with operational excellence.

Previously, Dr. Gonzales served as Chief Medical Officer at Centra Health, driving a nearly 50% reduction in serious safety events, generating \$12M+ in sustainable revenue, and co-leading a \$300M expansion.

A champion of leadership development and digital innovation, he teaches in a doctoral program on AI in healthcare and advises a predictive analytics startup. His passion lies in advancing safe, tech-enabled care models, strengthening physician leadership, and shaping healthcare's future through innovation, education, and system integration.
