

Michael Mannina, MBA, MSN, RN
Assistant Clinical Manager
Henry Ford Health, Detroit

Michael Mannina began his nursing career in 2018, working in the Medical Intensive Care Unit (MICU) at Henry Ford Hospital. With a strong clinical foundation, he transitioned into healthcare operations in 2022, accepting a role as a Management Engineer at Henry Ford Wyandotte Hospital. In this position, he led a variety of process improvement initiatives across both clinical and non-clinical departments, including the implementation of Lean Daily Management hospital-wide.

In 2024, Michael returned to a more direct leadership role in patient care as the Assistant Clinical Manager of the inpatient Orthopedics department and the Discharge Suite at Henry Ford Hospital in Detroit. In this role, he is responsible for the daily operations of the

units, focusing on optimizing patient flow and ensuring seamless transitions from admission through discharge.

Michael holds a Bachelor of Science in Nursing (BSN) from the University of Windsor and dual graduate degrees— a Master of Science in Nursing (MSN) and a Master of Business Administration (MBA) with a concentration in Healthcare Administration—from Madonna University.
