Greggory Hodge is a seasoned aviation industry leader committed to advancing workforce development, business innovation, and minority representation in aviation. As Vice President and Executive Board Member of AvDyne AeroServices, LLC, he plays a pivotal role in managing one of the country's largest minority-owned FAA 145 repair stations, overseeing strategic growth, operational efficiency, and regulatory compliance.

With over 20 years of experience in aircraft maintenance, business operations, and public affairs, Greggory has been instrumental in forging partnerships that expand opportunities for aviation professionals. His leadership in mentorship, community outreach, and economic development makes him a strong advocate for Virginia's aviation sector. His passion for the industry and track record of success uniquely positions him to contribute valuable insights and drive meaningful impact as a Virginia Aviation Business Association (VABA) Board Member.

Greggory's expertise extends beyond aviation maintenance; he has played a key role in fostering strategic collaborations with industry stakeholders, ensuring continuous innovation and growth. As a dedicated leader, he has championed programs that enhance diversity and inclusion in the aviation workforce, working closely with educational institutions and corporate partners to create sustainable career pathways for aspiring professionals.

His tenure at AvDyne AeroServices has been marked by a commitment to operational excellence, supplier engagement, and technology-driven solutions that improve efficiency and service delivery. He has successfully implemented specialized tool calibration programs and procurement strategies that have contributed to the company's reputation as an industry leader.

In addition to his executive responsibilities, Greggory has served as Director of Public Affairs for the Major Anderson Tuskegee Aviation Maintenance Academy, where he managed government relations, media outreach, and strategic communications to elevate awareness and support for aviation education initiatives.

Greggory Studied Automotive Engineering Technology at Northern Virginia Community College. His technical acumen, business leadership, and advocacy for aviation excellence make him an ideal candidate to support and advance the mission of the Virginia Aviation Business Association.
