

Duncan Sinclair, Ph.D., Vice President – Capital Markets, Financial Strategies Group

Duncan Sinclair is Vice President in the Capital Markets and Financial Strategies groups at Ramirez & Co., and sits on the Investment Committee at Ramirez Asset Management. He works with clients on various topics in corporate finance, and is versed in many analytical techniques including machine learning, econometrics, data science and statistics. He also provides research in rates and macroeconomics firm-wide, and has authored papers on various topics within investing and corporate finance. While at Ramirez, Duncan has advised Google, HPE, Evergy, Duke, NextEra, Southern Company, Verizon, AT&T, Macy's, Kroger's, Pfizer, Goldman Sacks, Capital One, Credit Suisse, amongst others.

Formerly, Duncan was an associate at Charter Oak Financial Consultants, advising unsecured creditors in major bankruptcy cases, including Asarco and W.R. Grace. Duncan provided analysis on pricing for derivatives and valuation.

Prior to Charter Oak, Duncan obtained a PhD in Geometric Analysis from The Johns Hopkins University, specializing in heat flow methods. Duncan also obtained a BA in Mathematics from The University of Pennsylvania.
