

# The Mongoose Method Part 2 Registration Form

## Introducing: The Mongoose Method

The Mongoose Method was conceived to restore balance to our justice system. The goal is to beef up the arsenal of our defense; train our members to proactively recognize and avoid traps; educate employees and the greater business community that depends so heavily on core services such as transportation and construction.

Information is power. The plaintiff's bar has made itself even more successful by sharing resources. They produce practical seminars, and strategic coaching, and share and teach demonstrated techniques to damage defense witnesses.

Always striving for the biggest award possible, they provide direct consultation on cases with large judgment potential. We will balance the scales of justice by teaching Mongoose Method.
