February 14, 2019

Dear Scottsdale Prep Families,

Last night, our Scottsdale Prep Parent Service Organization presented the second of two opportunities on the dangers of opioid use and vaping. The increasingly widespread use of these drugs and devices among teens is cause for serious concern, and we hope that our families gained valuable knowledge from the sessions. Thank you to the SPA PSO for sponsoring this timely and informative presentation.

This week, you may have seen [news coverage](#) regarding the distribution and use of pills laced with Fentanyl at a nearby private high school in Scottsdale. Because our students' social circles may connect, we wish to encourage our parents to engage in conversations with students about this situation. The health and safety of our students is of the utmost importance, and we appreciate your support at home in sharing information with your children as you deem appropriate.

We will continue to engage our entire community and PSO in offering future presentations for parents and students regarding drug awareness. Please feel free to reach out to me with any questions on this important topic.

Best wishes,

*Alison Chaney*
