Intentions 2014-2019

Concepts and Intentions for Creating the Unity Church of San Antonio in 2019, An Update

We are becoming the center of excellence in our area for spiritual transformation through celebration, study, and service with an awakened community radiating God's light.

We are halfway to 2019 and have accomplished much. Our campus has seen improvements, our technology is expanding, Youth Ministry now has dedicated space and our community center is inviting and spacious. Our community continues to study and serve as God's light; opening hearts, transforming lives, and celebrating the divine identity of all.

Our calendar is busy with classes, book studies, guest speakers, regular group meetings like RIU,(Recovering in Unity) ACIM, (A Course in Miracles) and Pranic Healing. We have space for more activities as opportunities and volunteers arise.

The campus has changed with open space for parking now and potential for new building in the future. Unity Heights downstairs has been renovated and enhanced for Youth and Community activities. The addition of beautiful outdoor seating on the deck creates more space for social gathering. The bookstore has been re-imagined in the Community Center to great success.

Our younger children now have dedicated Sunday space for children's church. The new check-in process allows parents to comfortably drop off their children before the service begins and insures they will only be released back to their parents.

The Unity Heights mortgage is on track to be paid in full in 2019.

Sunday celebrations are blessed with beautiful music provided by our Music Team and often guest performers. Our sound technicians expertly use the new system to enhance every song at every service.

Audio of our Sunday Services are now available and video and live-streaming is coming soon. The Bookstore is using Square™ technology for better service and inventory control. Our children's safety has been improved with use of electronic registration of children on Sundays.

Judy Beach completed her ministerial internship at UCSA (Unity Church of San Antonio) and is now a minister at Unity of Corpus Christi.

We just completed our Summer of Service campaign with events ranging from volunteering at the Humane Society to visiting veterans in nursing homes. We continue our community service at University Hospital on Thanksgiving and Christmas at Pecan Hill.

UCSA is a powerful, loving and committed CommUNITY creating through thought, word and deed the Unity Church of San Antonio 2019 we envision.
