

### 2019 Voting List Winners!

The following items have been voted in at our recent Alert User Conference. In fact, Item 55 (the one with the most votes) is ready already! We got right to work!

Item #	Description	# Votes
55	When clearing customer from ticket do not clear delivery information	34
37	Add emailing/scheduling to custom reports	31
8	Show customer rates/prices on search screens	27
19	Add the ability to add email on the fly to customer and contact when adding new customers through the counter/work order. Add new tab to customer counter/work order screens to allow addition of multiple contacts	26
33	Prevent Sign & Rent from working on a deleted ticket	25
57	Put original invoice on printed contract when creating a tax credit ticket	25
38	Allow scheduling Equipment Sold Report	24
3	Retain search filters in Dashboards once selected	22
27	Add option to display ticket when looking at the sales items committed from the sales maintenance quantity on hand file	17
23	Move unapplied payment from back office to open ticket	17
26	Expand the name on sales items to 50 characters	16
32	Add cc'ing email recipients on a single message	15
52	Indicate on the main contract screen if all items are checked in	14
13	Choose store location when copying a ticket	14
60	Add Sign & Rent links when sending from Document Center	13
10	Add ability to lock tickets for a preset number of hours (ie. 48 hours) prior to out date so that changes cannot be made but additional items can be added. Add a parameter to indicate if this applies to contracts only or contracts and reservations, and the number of hours that triggers locking changes. Allow manager to override block and log on the exception report	13
46	Customer operator dashboard add event information to invoices	12
54	Display last date/time on stranded ticket	12
