

## Electric Vehicle Charging Station Funding Now Available

The **CALeVIP** program is offering up to \$350,000 per commercial entity towards the procurement and installation of new Electric Vehicle Charging Stations in the following counties: Tulare, Merced, El Dorado, Kings, Nevada, Solano, Yolo, Imperial, Sutter, Stanislaus, Placer, Butte and Napa.

[Zero Impact Solutions](#) executes this process end to end by providing the design, construction, procurement and management services to retail property owners in the Northern California Counties listed above. Based on the Governor's recent signing of an Executive order, the state of California is aiming to turn 70% of all new vehicles sold to be electric by 2025 and 100% by 2035.

To achieve this goal, CALeVIP is allocating funds to cover the equipment and installation of charging stations to qualified businesses. This also includes 5-year platform services as well as a 5-year extended warranty on the EV Chargers. In addition, the rebate will cover any upgrades necessary to the transformer or switchboards, these upgrades are of great benefit to the existing electrical infrastructure. The funding is dispersed through first come first served reservation system opening up on **May 12<sup>th</sup>, 2021**. (Funds will expire within an hour of launch.)

If you are interested in taking advantage of this generous promotion, please feel free to contact me at your earliest convenience, my contact information is listed below!
