

Debby,

For the first time ever, we are opening **CJPAC's Generation: Student Leaders Program** to Jewish high school students from **any part of the country**. That means no matter where they live in Canada, they can be a part of an incredible political engagement course.

Students will meet monthly and learn from some of the foremost experts in the Canadian political world about the topics of the day, elections and how all levels of government work. AND, it's all from the comfort of their living room or bedroom, as we're doing this entire year virtually. This unique program is an incredible way for students to bolster their CV's ahead of college and university applications.

This is a great opportunity to meet new friends, learn about Canadian politics, and how one can make a difference!!
