

By worshiping outside we will be able to enjoy some things we would not be able to do otherwise. First and foremost, we will be able to sing together...out loud!

In order for this to work, we will all have to work together for the greater good. That means we will need to observe the following:

- Face masks covering both mouth and nose will be mandatory for everyone more than 2 years old for the entire time you are out of your vehicle on the campus. A mask must be worn even if you choose to wear a face shield. Please understand that having assured those who attend that masks will be worn for their safety, should someone persist in not honoring that commitment we will need to bring the service to an immediate close and adjourn.
- Disposable masks and a large bottle of hand sanitizer will be available onsite for those who arrive without their own.
- You may bring a beverage and push your mask up or down while drinking, but let's try not to make worship an opportunity for a breakfast picnic.
- You are asked to bring your own lawn chair or blanket on which to sit, and household groups should space themselves 10 feet (side to side and front to back) from other household groups to maintain social distancing that makes singing a much reduced risk.
- Obviously there can be no hugging or "holy kissing" - not even if someone tries to convince you they're just passing the peace. Make like a momma and just say no. lol
- The buildings will remain closed and there will not be bathroom facilities available during worship.
