

TREASURE UPDATE

SEPTEMBER 2021

“Therefore go and make disciples of all nations”

Testimonies From Nigeria

We are receiving annual updates from our National Leaders and love seeing how God has been moving in this past year! In Nigeria, our partner reported a network of over 170 leaders that are working under him. They have had so many people making decisions to follow Christ that they have lost count, estimating the number to be over 360 new believers!

Our partner shared a testimony of a Treasure listening group that included three families who were idol worshipers. After being exposed to the gospel through the Treasure they decidedly abandoned their gods and are now being discipled.

Another testimony was shared of a Muslim group that objected to the audio Bibles. After listening, three members have been converted through the use of the Treasure. They now travel secretly to attend a church outside of their area out of fear of being discovered. Please pray for these new believers and for more members of this Muslim group to come to know Christ!

Nigeria has 84 unreached nations representing over 65 million people (Joshua Project). Because of resources being sent through World Mission, there are now 4 new churches in Nigeria as of this year. You are making this possible!

*Your support is making an impact
in spreading the good news to ALL Nations!
God Bless, Greg Kelley, CEO*
