

FY 2022 – 2026 Tentative Five Year Program

January 26, 2021

**Greg Byres, P.E.
Director for Multimodal Planning Division**

2022-2026 Tentative Program Discussion

Background

Overview of Asset Condition

P2P Process

Tentative 5-Year Highway Delivery Program

MAG: Tentative Program

PAG: Tentative Program

Airport Program

Next Steps

Background

- **Tentative Five Year Program to be presented to the STB on February 19, 2021.**
- **Planned public hearings will be held March, April and May.**
- **June 3 Study Session to discuss comments**
- **Projected approval of the Five Year Program scheduled for June 18**
- **July 1, 2021 Starts FY 22**
- **Must be fiscally constrained – STB Five Year Program**

Overview of Asset Condition

ADOT

\$22.9 Billion = Value of State Highway System Infrastructure

ADOT

**\$22.9
Billion**

Without a commitment to preservation, the system would cost \$300 billion to replace.

ARIZONA DEPARTMENT OF TRANSPORTATION

Bridge Ratings

Good: Primary structural components have no problems or only very minor deterioration.

Fair: Primary structural components are sound but have some concrete deterioration or erosion around piers or abutments caused by flowing water (scour).

Poor: Advanced concrete deterioration, scour or seriously affected primary structural components. A poor condition bridge is not unsafe. Unsafe bridges are closed.

ADOT

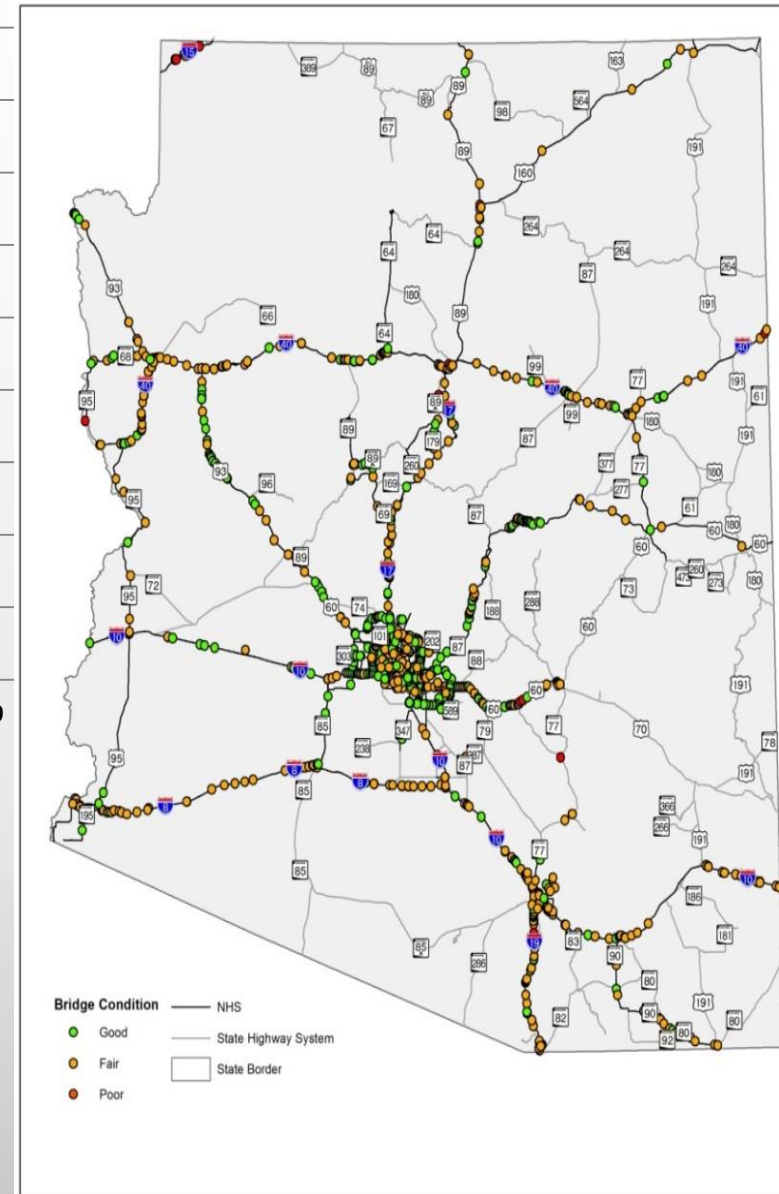

Bridge Condition

2019 Bridge Condition

59% Good

Pavement Ratings

ADOT

Good – Smooth road surface, with little cracking and no ruts or potholes.

Fair – Moderate amounts of cracking that lead to increased roughness of the road surface. Shallow ruts in the wheel path.

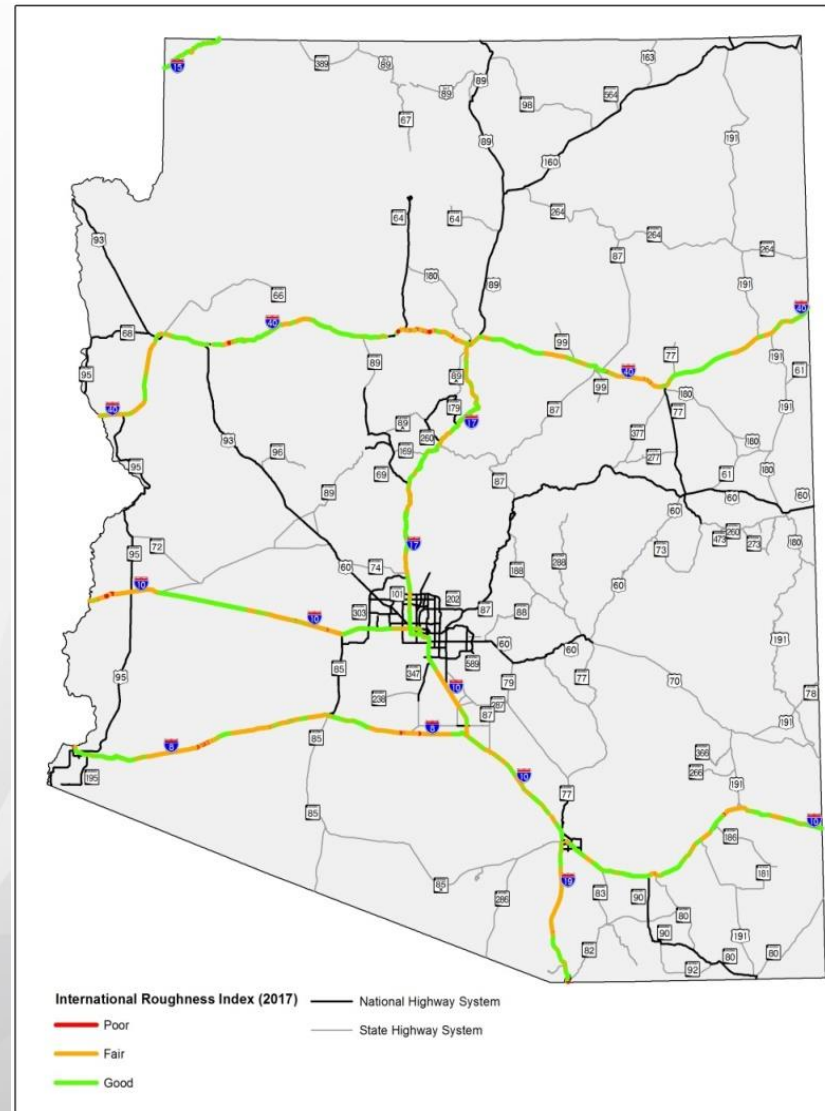

Poor – Numerous cracks, rough road surface, ruts in the wheel path, potholes and disintegration of the road surface.

Pavement Condition: Interstate

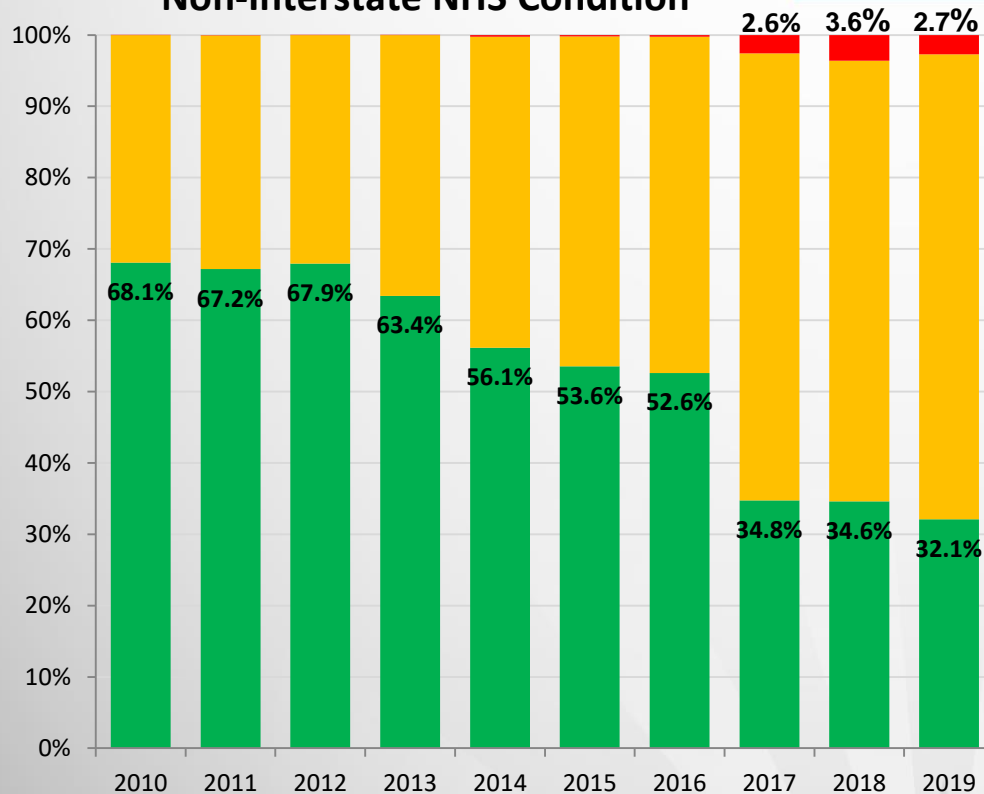

48% Good

2019 Pavement Condition

Non-Interstate NHS Condition

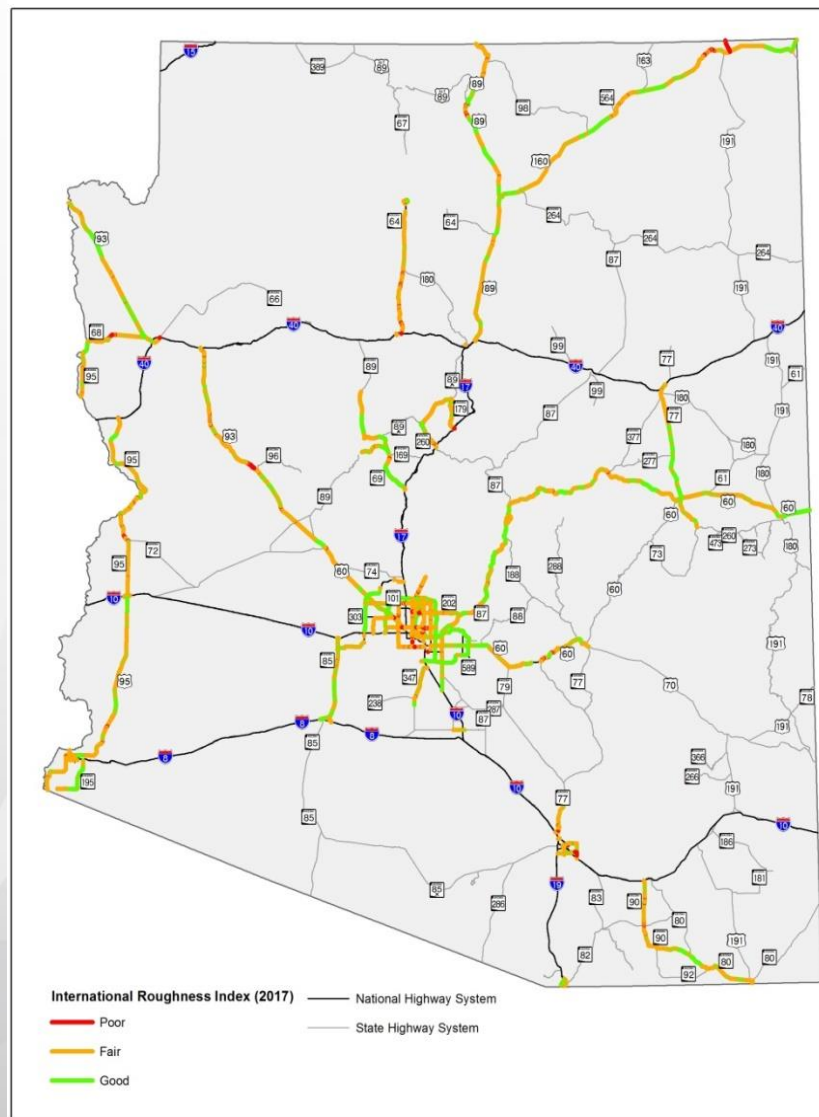

Good Fair Poor

2019 Pavement Condition

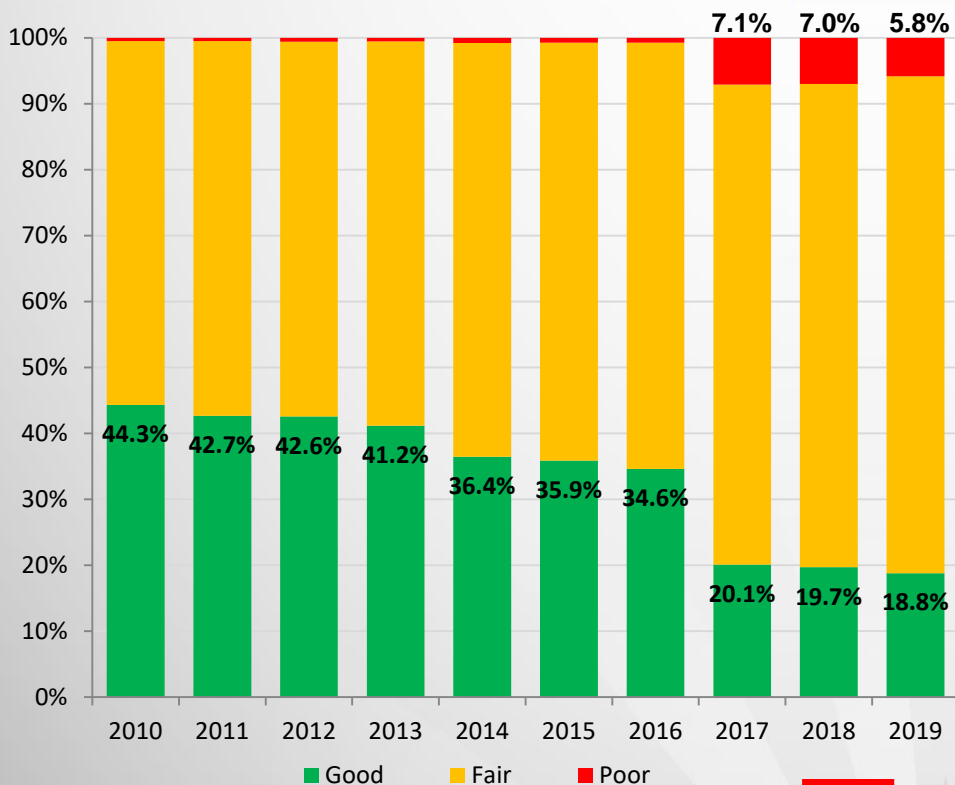

Good Fair Poor

32% Good

Pavement Condition: Non-NHS

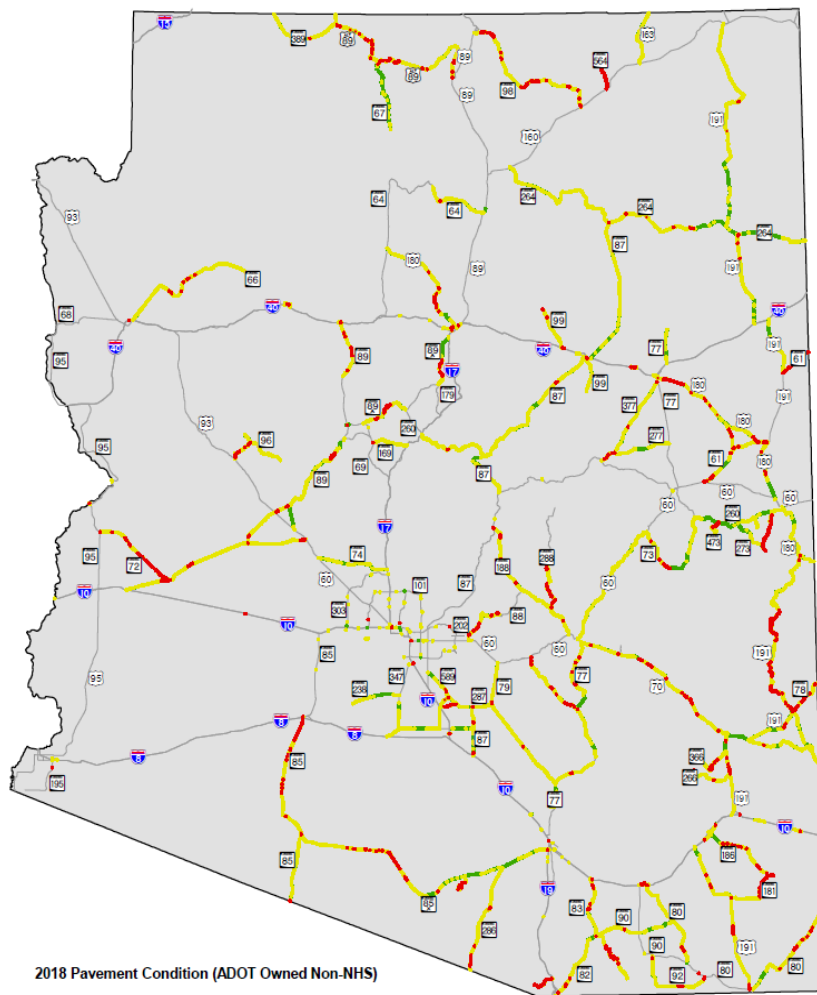

19% Good

2019 Pavement Condition

Good Fair Poor

2018 Pavement Condition (ADOT Owned Non-NHS)

Fair
Good
Poor
State Highway System

WMYA 2040

Categories of Highway Need/Investment

- ▶ ***Preservation:*** Investment to keep pavement smooth and maintain bridges
- ▶ ***Modernization:*** Non-capacity investment that improves safety & operations (e.g. adding shoulders or smart technology)
- ▶ ***Expansion:*** Investment that adds capacity to the highway system (e.g. new roads, added lanes or new interchanges)

Bridge and Pavement Preservation

ADOT

Maintaining Current Conditions

Combining the Pavement and Bridge preservation values for maintaining current conditions (2019/2018), and adding 15% for development and construction management costs gives the following.

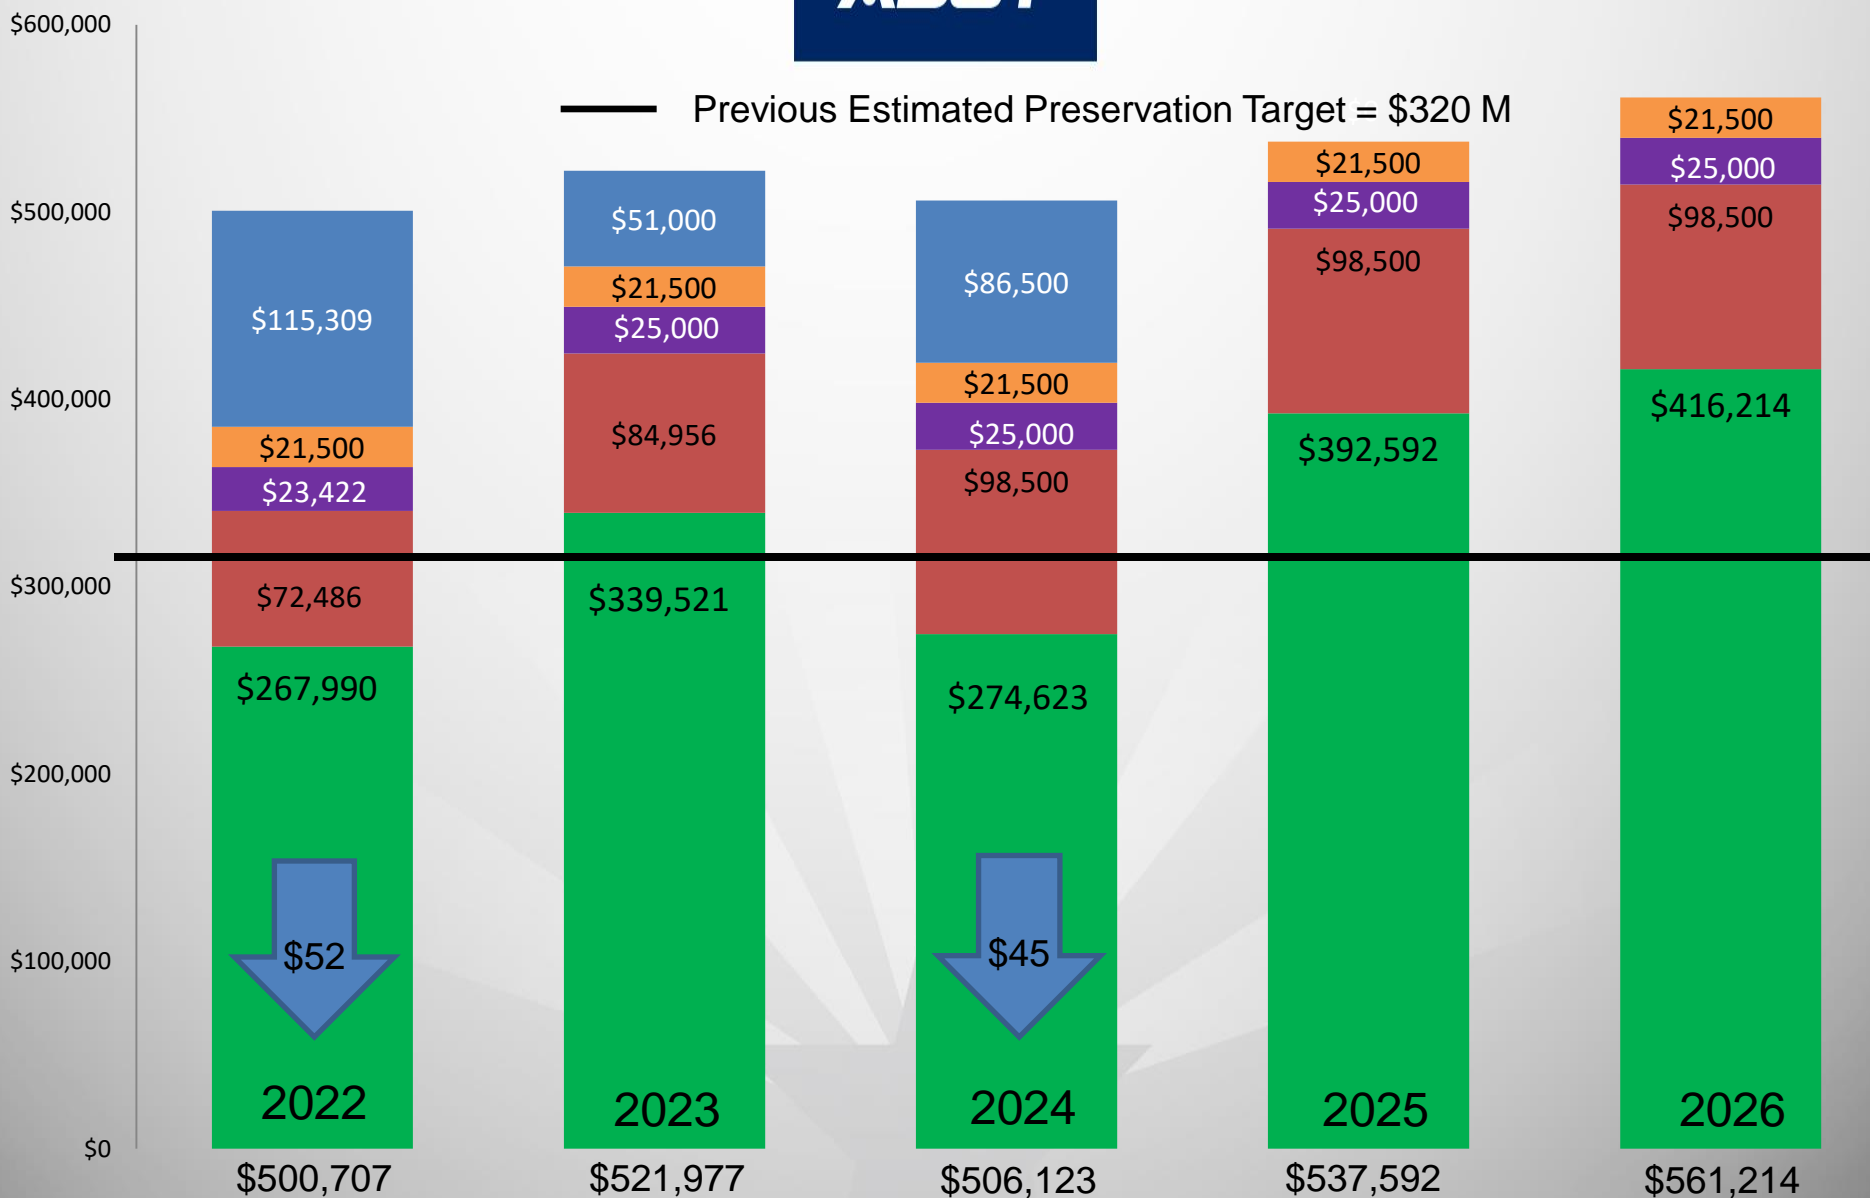

Bridge and Pavement

Preservation	2020	2021	2022	2023	2024	2025
Bridge	\$51,622,910	\$89,643,000	\$91,701,000	\$63,750,000	\$53,000,000	\$90,000,000
Pavement	\$139,501,330	\$218,557,644	\$303,663,306	\$226,529,401	\$114,932,798	\$84,799,911
Sub-Total	\$191,124,240	\$308,200,644	\$395,364,306	\$290,279,401	\$167,932,798	\$174,799,911
Development @ 15%	\$28,668,636	\$46,230,097	\$59,304,646	\$43,541,910	\$25,189,920	\$26,219,987
Total	\$219,792,876	\$354,430,741	\$454,668,952	\$333,821,311	\$193,122,718	\$201,019,898

To bring all system roadways into good condition would cost \$4.2 Billion
(Construction cost only, using 2020 unit costs)

— Previous Estimated Preservation Target = \$320 M

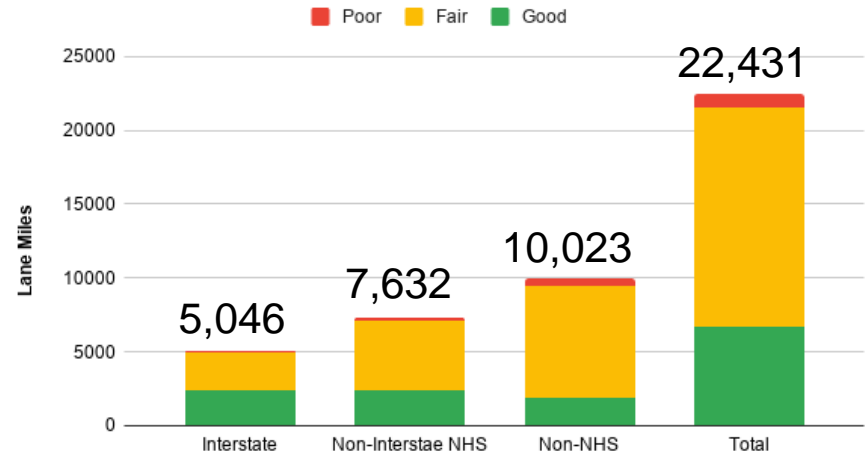

■ Statewide Preservation
 ■ Statewide Modernization
 ■ Statewide Project Development
 ■ Statewide Planning
 ■ Expansion for Greater Arizona

System Pavement Preservation

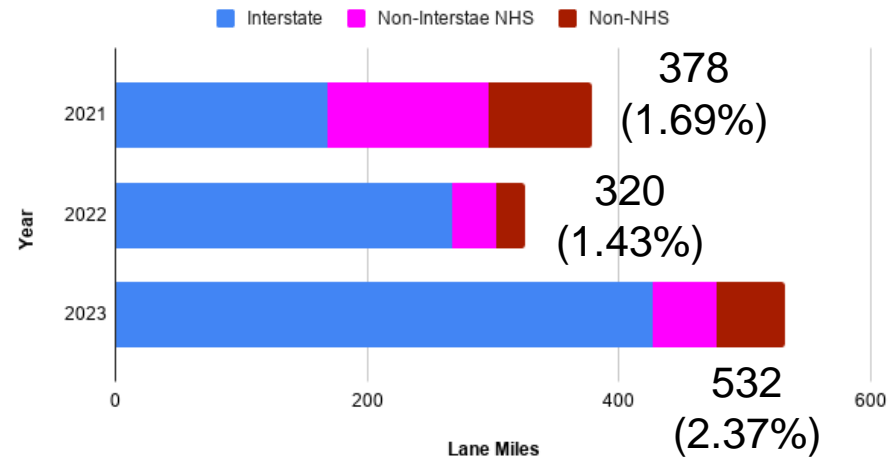

2019 Pavement condition information was extracted from the 2019 HPMS submittal to FHWA.

The Lane Miles represented, consist of projects listed in the tentative 5 Year Program, and do not include sub-program funding. Percentage indicated percent of total system lane miles programmed for preservation.

2019 Pavement Condition by Lane Miles

Programmed Pavement Preservation (2021-2025)

A minimum of 5% per year is needed to maintain existing conditions.
