Michael joined Cincinnati Insurance in 2013 as the first loss control transportation specialist, brought in to develop and lead the transportation loss control program. His specialty focus has been in the Transportation arena for the past three decades. His current responsibilities include performing field surveys on unique, unusual or large risks, providing technical support and guidance to transportation focused clients, conducting transportation focused management seminars and training programs, and serving as a Transportation Loss Control Specialist to Field Marketers, Underwriters, and Loss Control Consultants.
