

# THE ESSENCE OF BIBLICAL THEOLOGY

(Not Either/Or but Both/And)

What is Biblical Theology? Is theology relevant to one's daily walk in Christ or is "theology" just another word for abstract, religious philosophy? In this seminar, we will consider these questions and begin an exploration of how the Bible presents us with the answers. We will examine the essential shape of biblical theology and identify the ways it should inform our daily life as followers of Jesus. Dana Yentzer, Director of Ministry Resources Institute, will guide us through the major concerns of Old Testament thought and identify the key interpretive process that the ancient Jewish people employed as they sought to understand God's revelation in scripture. Dave Drum, Director of J17 Ministries, will continue the conversation by examining the way that Jewish thought is expressed through the New Testament and identify the ways that it conflicts with the dominant patterns of "western" thought active in our own society. Throughout the conversation, time will be given to apply the theological principles discussed to real life issues and each participant will receive a resource package designed to help them apply biblical theology in their own life. Join us for this exciting opportunity to understand the shape of biblical thought and how to apply it in the world today!
