

Public Energy Performance Program

Custom energy solutions that save more money for your facility

As the largest provider of emission-reducing energy solutions across North America, CLEAResult is committed to helping everyone use less energy.

The CLEAResult Public Energy Performance (PEP) program will, at no cost, provide a comprehensive approach through customized solutions for your unique building needs, budget concerns and energy efficiency goals. PEP combines a traditional energy efficiency program with a holistic, whole-facility approach. The program will act as a single point of contact and will provide energy efficiency services, technical assistance and incentives to support your energy goals. Energy efficiency incentives available:

- ✓ HVAC Retrofit
- ✓ Refrigeration Retrofit
- ✓ Display Cases
- ✓ Pool Pump
- ✓ Economizer
- ✓ Convection Oven
- ✓ Chiller
- ✓ Demand Control Ventilation
- ✓ Commercial Ice Machine
- ✓ Variable Frequency Drive
- ✓ Vending Machine Control

Measures are not limited to this list and are subject to change.

Who Is Eligible? PEP is available to existing public sector facilities within the SCE service territory who pay the Public Purpose Program surcharge, and are owned, operated or occupied by:

- ✓ Public or private primary or secondary schools
- ✓ Private universities, colleges and trade schools
- ✓ Local, federal and tribal governments
- ✓ Special districts

A Short Path to Energy Savings

Schedule Your Free Evaluation

Contact CLEAResult to set up an appointment for us to review your building.

Assess Your Building

Our energy experts will review and unlock your facility's energy savings potential.

Enhance Your Efficiency

With an action plan, you can install these measures or go further and participate in our Strategic Energy Management program (see next page).

We change the way people use energy, *for the public sector.*

CLEAResult[®]

Strategic Energy Management

Get started with ongoing and continuous energy savings with Strategic Energy Management (SEM), Offered through the Public Energy Performance (PEP) program, the SEM offering provides no-cost services to improve the energy efficiency of your facilities. SEM extends and broadens the PEP program, using a holistic, whole-facility approach. It focuses on no-and low-cost energy savings opportunities, including:

- ✓ **Behavioral changes:** Simple improvements like lighting adjustments, checking set points and making sure roof doors aren't left open make a difference.
- ✓ **Retro-commissioning:** Ensure that building systems such as heating, cooling and variable frequency drives are calibrated and running to specifications.
- ✓ **Operations and maintenance:** Improve building performance with routine maintenance like cleaning filters, changing coils, roof inspections and sealing air leaks.

Receive Personalized Support

We will work with your staff to provide training and a dedicated program team that provides support and resources. No-cost services include:

Site Visits

Building assessments to find energy opportunities

Professional Resources

SEM coaching and engineering support

Data Analytics

Data modeling to track performance

Earn While You Save

In addition to the cost avoidance, **your organization will receive \$.03/kWh saved based on your energy model performance.** All activities, projects and participation in the program help to generate savings; the more you save, the larger incentive you receive. There is also **\$10,000 in potential milestone incentives** to help offset the cost of your time.

Reach out today to discuss this opportunity!

As a SEM participant, our team helps you:

Measure

Our team collaborates with you to measure, model and report on how you use energy today.

Discover

Maximum-level energy savings start by discovering new opportunities to reduce your annual usage with our own eyes.

Plan

Once you discover the best opportunities to lower your energy use, we work with you to set realistic reduction goals and put a plan in place to reach them.

Reduce

With your plan in place and people aligned, it's time to get to work and reduce your year-round energy usage.

Improve

Continuous improvement is a natural part of the energy-saving process. From maintaining your newly installed systems to looking ahead toward your next reduction target, we'll be by your side every step of the way.

We change the way people use energy, *for the public sector.*
