

A graduate of Palmer College of Chiropractic in Davenport, Iowa, I have been a practicing Chiropractor in Wilmington, North Carolina for nearly 11 years. I currently hold active credentials as a DACBSP, ICSC, as well as several others through the Functional Movement Systems (FMS) and the Titleist Performance Institute systems. I have previously served as a member of the sports medicine team for several semi-professional organizations here in the Wilmington area including basketball, football and baseball teams for four seasons each. I have also served as the team Chiropractor for the local Cape Fear Community College athletics program, providing care for men's and women's basketball as well as men's and women's soccer at CFCC for three years. I also served as a member of the sports medicine team alongside other Chiropractors, Physical Therapists and Athletic Trainers for the Nitro Circus freestyle motocross tour in 2019.

Treating the athlete has long been a passion of mine, as it has been one of the constant demographics that has been a part of my practice for nearly the entire time I have been in practice. Since graduating from Chiropractic school, becoming a DACBSP has been a tremendous goal of mine that I finally saw come to fruition in April of 2020. I am continuously striving to further my knowledge to provide the best quality of care possible to all of my patients. As part of this, I am currently enrolled in coursework to attain diplomate credentials in the areas of rehabilitation, orthopaedics and nutrition as well.

The ACBSP has long been one of the organizations I have held in the utmost regard for bringing the highest quality education to our field in the area of sports injury diagnosis and treatment. To have been considered as a nominee for a spot on the Board of Directors for the ACBSP is an honor all to itself. If elected to a position on the Board, I will strive to do all I can to help continue bringing the highest of standards to the ACBSP and its certificants past, present and future for the duration of my service. I thank you for your consideration as a future member of the ACBSP Board of Directors.

Christopher J. Harris, DC, DACBSP, ICSC
