

Work is ongoing to develop an Employer Support Network (ESN) for those recruiting or interested in recruiting people with convictions (PWC). A Delivery group has been established with Third Sector organisations, private sector employers and other key stakeholders. This Delivery Group is now seeking your assistance.

The Delivery Group wants to compile a comprehensive list of TSOs supporting people with convictions – of all ages - towards and into work – as part of their core business or as part of general employability support to vulnerable people which specifically includes those with convictions.

They also want to identify existing or potential case studies which could be developed to illustrate successes in working to support people with convictions into and sustaining employment.

Both types of information would be used as potential resources for a website/ tool for the ESN PWC.

If your organisation is directly involved in supporting people with convictions towards and into work, it would be appreciated if you could complete the brief survey sheet attached, and return it to Jeanette Hagerstrom at Jeanette.Hagerstrom@gov.scot

It would be greatly appreciated if any information could be provided by **1st September**. Of course any later contributions would be welcome too.

If you have any queries regarding this request, you can contact Jeanette directly at
