

The FRESH Sprouts Program helps develop healthy eating habits for families with a weekly delivery of a bag of fresh produce from SPFC to local pre-schools, along with coloring sheets, fun food facts, and kid-friendly recipes.

Dear Sandy,

Angels Against Abuse's \$15,000 grant will allow us to provide the unique FRESH Sprouts program for one of our wonderful pre-schools, like Rosie's Playschool, in the high-need Lealman area. The FRESH Sprouts Program helps develop healthy eating habits for families with a weekly delivery of a bag of fresh produce, along with coloring sheets, fun food facts, and kid-friendly recipes. SPFC "Table Talk Cards" are also included with deliveries and consist of fun questions and topics, bringing a lively feel to mealtimes and encouraging everyone to enjoy healthy food, conversation, and togetherness.

Rosie's Playschool delivers an average of 215 FRESH Sprouts bags every month to children and families and your support helps make sure these children and families have access to fresh, healthy food and developmental activities that support learning and early childhood development.

Thank you so much for your contribution!

Jennifer Yeagly,
Chief Executive Director
