Co-create the Caring Economy

Vision: Co-creating the Caring Economy to build a more inclusive and regenerative society.

Our Purpose: We are a global network of women entrepreneurs and intrapreneurs igniting **Caring Economy** values and integrating them into organizations across all sectors, promoting positive impact and building a more inclusive and regenerative world.

We focus on delivering **simple, effective and scalable solutions** according to the four (4) pillars of the Caring Economy to make visible and valuable:

1. The care for the environment.
2. The “work of care”.
3. The importance of high-quality early childhood education & "re-skilling".
4. Transparency and metrics of people's well-being and regeneration of the environment.

We are committed to advancing the Sustainable Development Goals (SDGs) with a focus on numbers 5 (Gender Equality), 13 (Climate Action) and 17 (Partnerships).

Our Values: Awareness, Advocacy, Abundance, Action-oriented, Collaboration, Co-creation, Care, Responsibility.

Methodology:

- **Be Aware:** Through our webinars, we engage members in direct dialogue with thought leaders and changemakers toward the Caring Economy.
- **Be Abundant:** Through Networking, Partnership & Collaborative Actions, we facilitate connections to increase our impact toward the Caring Economy.
- **Be Active:** Through our goal to create awareness, and inspire action we remain committed to utilizing standard tools and sharing business results, engaging in collaborative projects, and activating positive change. We support enterprises to address sustainable strategies, gender parity using simple and effective tools. We also create awareness and certify women and men in personal and professional development tools.

Our How

We achieve our purpose by activating and scaling proven and effective solutions of positive impact for the wellness of people and the regeneration of our planet:

Why have we chosen a butterfly for our logo?

"Imaginal cells"

Imaginal cells have the vision of the butterfly in their DNA. They emit a frequency and find each other so they can cluster, collaborate, and then multiply to create a beautiful butterfly" ~ Kim Polman ~

These cells, which exist in the caterpillar sharing the same DNA, are responsible for turning the caterpillar into a butterfly. Inside the caterpillar tissue, the imaginal cells vibrate, connect and collaborate with the same frequency to access the transformation of the caterpillar into a butterfly.

Women 4 Solutions is a network that literally acts as imaginal cells, connecting and co-creating positive impact with the vision of mobilizing towards a Care Economy. Hence our butterfly logo.
