## **Fidelity Communications Brings Fiber-to-the-Home Internet, Gig Speeds to New Haven, Missouri**

**August 12, 2020 – New Haven, MO** – Fidelity Communications, part of the Cable One family of brands, is bringing fiber-to-the-home technology to New Haven, Missouri, enabling New Haven residents to receive the fastest and most reliable internet service available and a superior online experience that will outperform the needs of the New Haven community - now and in the future.

"Our team is thrilled to begin installing fiber-to-the-home service in New Haven," said John Walburn, Fidelity Division Vice President. "Our fiber-to-the-home technology allows Fidelity to offer services similar to those found in large metropolitan areas, and positions New Haven as a tech-forward city with the capability to support next-generation technologies."

Fidelity's fiber-to-the-home service provides customers with seamless connectivity and access to speeds up to 1 Gbps (1000 Mbps). Gig speeds allow faster downloads and uploads, enhanced video, real-time gaming and uninterrupted connections in multi-device homes. The company's new fiber network gives New Haven residents and businesses extra capacity to grow as new technology develops, and as an increasing number of in-home devices and business solutions require advanced internet connectivity.

"Fidelity construction crews and contractors are continuing to work in New Haven to complete building our fiber network," said Walburn. "It is our goal to transition all existing customers to this network before the end of the year."

Information about Fidelity's fiber-to-the-home service in the city of New Haven can be obtained by contacting a Fidelity associate in the local New Haven office by calling 573-237-2175 or online at [www.FidelityCommunications.com](http://www.FidelityCommunications.com).
