Clark County Water Reclamation DISTRICT

July 18, 2022

RE: POINT OF CONNECTION (POC) AND CIVIL IMPROVEMENT PLAN SUBMITTAL PROCESS CHANGE

To Whom it May Concern:

Effective August 17, 2022, the Clark County Water Reclamation District (CCWRD) Development Services will be upgrading the PIPES Portal and Database Applications that will impact the POC and Civil Plan Submittal processes. These updates will assist in reducing the civil improvement plan review time and to ensure the proper location is established for the project to connect to the CCWRD's existing infrastructure. The following will be initiated on this date:

1. Only a Nevada Licensed Professional Engineer will be allowed to submit a request to obtain a POC from the CCWRD.
2. A valid POC will be required BEFORE civil improvement plans can be accepted by the CCWRD via the PIPES Portal for review, further:
    a. Civil improvement plans will be rejected at the first submittal if the POC Tracking Number does not match the project or if the POC Tracking number is missing.
3. POC revisions and renewals can only be submitted via the PIPES Portal – NOT via email.
4. Each authorized PIPES Portal User will have visibility of all requested POC's for their company of employment.

Please feel free to contact Development Services, at (702) 668-8160 or at email developmentservices@cleanwaterteam.com with any further questions you may have.

Sincerely,

Leslie Long

Leslie Long, P.E.
