MEDIA ADVISORY

The 2016 Top Contractors Have Been Announced

Ace Asphalt named among the tops in Striping, Pavement Repair, Surface Treatment and Paving

INFORMATION:

Phoenix, Arizona — When it comes to providing professional, quality paving and surface repair, one of the best is coming up aces. Ace Asphalt is a 2016 Top Contractor as announced by Pavement Maintenance and Reconstruction™ magazine. The publication studied five industry segments – paving, sealcoating, striping, surface treatment and pavement repair – and Ace was tops in four: Striping, Pavement Repair, Surface Treatment and Paving. The results appeared in the June/July issue of the magazine and is also available [online](#).

“This is the fourth year in a row that Ace has been chosen as one of the top pavement maintenance contractors in the country,” said Wayne Bell, President, Ace Asphalt. “We have our customers to thank. Without them, this recognition wouldn’t be possible.”

The criteria used in choosing the top contractors involved gross sales volume for 2015, a breakdown of the work that generated those sales, and third-party verification of the sales total. This was the fourth year that the Top Contractor Survey was conducted and 75 companies were evaluated. Pavement Maintenance and Reconstruction is a leading voice in generating industry benchmark information and in developing verifiable lists for the top-selling contractors in each of the four categories where Ace came out on top.

Bell: “We are grateful and proud to receive this distinction. We are also proud of our staff, whose hard work, dedication and continued responsiveness has helped Ace to earn, and maintain, our reputation.”

Ace Asphalt has offices throughout the Southwest United States.

About Ace Asphalt

Ace Asphalt is one of the largest and most trusted asphalt and paving companies in the Southwestern United States. With 50 years of experience delivering asphalt and concrete solutions, Ace utilizes materials, processes, machinery and techniques that are perfected for each unique customer situation. The company offers paving, concrete, earthwork, site design & survey, demolition, sealing, asphalt repair, crack repair, striping & markings, athletic tracks, and speed bumps, signs and sweeping. Ace Asphalt has offices in Arizona, Colorado, New Mexico, Nevada and Texas, as well as completing occasional larger projects within other areas of the United States. Ace Asphalt is owned by Prophet Equity, a private equity firm that is based out of Southlake, Texas. For more information about Prophet Equity, visit [prophetequity.com](#).
