

Kiarra's Story

Written by: Kevin & Ellen Wehr

Edited by: Megan O'Connor

Kiarra was an energetic 8 month old puppy when she broke out of her Woodland (Yolo County) backyard and was hit by a car over the Christmas holiday in 2018. Her front right leg was shattered beyond repair and her owners could not afford the amputation. After several weeks, hoping it would heal, the owners surrendered Kiarra to the Woodland Veterinary Clinic, who contacted GSRNC eager to save her life rather than have her put down.

GSRNC devoted funds to support the surgery, and after a brief recovery Kiarra was fostered by Kevin and Ellen in Sacramento. Kiarra took to her new tri-pawed status in stride, with energy and vigor.

She enjoyed exploring the neighborhood on walks and playing chase in the backyard with Ellen and Kevin's adopted GSD Emmylou. Kiarra and Emmylou became great friends, Emmylou (who is much smaller than Kiarra) even shared her bed with her new buddy.

After a month of convalescence, Kiarra spent the weekend with Sergio and Michelle in Sacramento. It was a match, and Kiarra (now Clover) is settling in and getting to know their cats.
