To everyone at German Shepherd Rescue Northern California,

Bruce and I are so delighted to be able continue to make donations from our IRAs to help support GSRNC mission to help GSDs in need.

I've had GSDs in my life since I was about 7 years old and Bruce and I have had them since we were first married. Our beloved dogs adopted from GSRNC; Lucy Locket (GSRNC#2003), Ausom Andy (GSRNC#4564 formerly "Jester") and Rain, our Rainbow Warrior (GSRNC#6109 formerly Shelby) all found their way safely to us through your efforts.

We can never thank you enough. This is a hard letter to write as they are all in the arms of the angels now, but they are safe in those arms and they are loved for all eternity. It is our privilege to have had them in our lives and we cherish the memories.

***Lucy (R) with her soul mate Peeps on a fine day at Hope Valley.***

Lucy was absolutely "goodness personified in the form of a dog". She was a born instigator, loving to set things in motion then step back innocently and watch what happened.

When we lost Peeps, Andy helped Lucy fill the void.

***Rain and Andy living it up at Cronan Ranch.***

Rain was a regal confident beauty queen, so joyous and loving. She was as kind and beautiful a soul as one could ever meet.

Andy was totally unique, my boy, my heart and soul, my dog of a lifetime. We had an epic adventure of a life for the years we spent together.
