BIO:

I am a visionary that believes business is more than a product or service. It's about change and building up others. Creating things that are RELATABLE.
I've had many changes in my life. From a thriving music career performing for 1000's to being an IT manager for a financial company to running my own business growing a team doing video production and becoming a marketing architect.

One thing that stays consistent is my work ethic and surrounding myself with good people that push me further every day.
I am the proud owner of Foureva Media and soon to be the author of my new book "Change your Circle, Change your Life".

This book is for you to understand the power of your circle and what the consequences and opportunities can happen from it. It really is more important than even the environment you live in to dictate your outcomes.

This book is created to help you see your life and evaluate what you are currently doing to achieve the outcomes that you desire.

50% Mindset meets 50% Action

"Change your Circle, Change your Life"

***My presentations can be personal or business-focused. If there are certain areas that you need to be covered, I can cater to that need!
