

Reflection by Margaux Holland, Chaplain

“From the rising of the sun to its setting, the name of the Lord is to be praised!” Ps 113:3

The Bible talks about how the sun will always rise. You can count on it. The sky begins to lighten with warm colors and then the golden rays pop up into rays of sunshine. We all love it.

On some days, when the sun rises, we cannot see it because of thick, dark clouds that rumble between us and the sun. The rain and cold captures our attention and that’s all we focus on. But the truth remains – the sun is still there, it is still shining but something has gotten in the way of our seeing it.

This is when our faith is strengthened. We remind ourselves that the clouds and rain are temporary. And, then the wind comes and blows the clouds away and we take a deep breath and are thankful for the sun.

There is a very truthful verse “Light is sweet, and it is pleasant for the eyes to see the sun “. Ecclesiastes 11:7 The Lord has made everything to respond to this verse. Our human heart and spirit rejoice, birds sing, the grass grows and animals wander.

Just remember, the sun always shines, clouds are temporary, and faith prevails. He has made it so... in all things.

Blessings
