

SMALL SCALE FOOD PROCESSOR ASSOCIATION

SUPPORTS INDEPENDENT
FOOD PROCESSORS & GROWERS

RECIPE TO SCALE

Foundations for Scalable Food Manufacturing

Strengthen the foundation you need to scale production or add complexity without preventable failures.

You're a fit:

- Canadian packaged food or beverage manufacturer
- Operating 12+ months and actively producing and selling
- Owner or operational decision-maker
- Access to real numbers or labelled estimates
- At least one product to scale in the next 3-12 months

You leave with:

- 90-Day Scale-up Plan & Scalability Map
- Cost + Traceability Summary (1 product)
- Capacity Snapshot
- Funding Readiness Checklist + proof-to-gather list
- Compliance Risk Map + regulatory questions list
- Support Relationship Map + outreach drafts

This is a FREE program, but operating costs, equipment, packaging, and certifications are not covered. This program does NOT guarantee funding, inspections, certifications, listings, or revenue outcomes.

How It Works

- Applied work using your own operation
- Focus on what changes as volume and complexity increase
- Build simple scaffolding you can use immediately
- Leave with ranked priorities for the next 90 days

Program Overview

- Pre-orientation + 6 live sessions
- 1-4 hours per session
- Online, facilitator-led
- Recordings available*

**More than 2 missed sessions may mean removal or deferral*

You Need

- One product to scale
- Ingredient & packaging costs
- Batch size & key steps
- Current sales channels & volumes
- Equipment & facility constraints
- Any labels, logs, or production notes you already keep

Estimates are acceptable if clearly labelled
