

Ways to Support Local Business

Stay Calm. Support Local

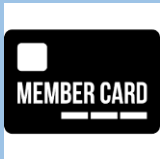

Give the Gift of Business

Buy a gift that covers your usual patronage. Then spread out the use of those gift cards to support them as normal or give them away as gifts to people who don't usually go there.

Buy Now, Pickup Later

If you had planned on purchasing a manufactured item like clothing or appliance, give the business a call. Pay for it now and have them set it aside for later pickup.

Keep Your Membership

If you have a membership to a gym, special class, dance studio, exercise class, etc. keep it going. Many small businesses count on that constant support to keep their doors open. Your continued support might be what keeps their business alive.

Help

Even if you don't know the local business owner, reach out to them and see how you can help.

Volunteer

This helps not only local business, but your community. Reach out to your local schools, churches, senior citizens facilities, childcare facilities. Check on your neighbors—especially those most susceptible to illness.
